

T300

LIGHT COMMERCIAL TREADMILL

Supreme refinement in design

Combine refined ergonomics and streamlined design. Being able to handle everything in your life with endurance and energy.

Smart quick buttons and preset program

Help users to perform a rhythmic, dynamic activity at a moderate to high intensity to improve your cardiovascular fitness.

Powerful AC motor

Perfect performance AC motor drive system to operate far more smoothly. Speed and incline adjustment during workout. Suitable for longer training sessions.

Large running surface

The running belt surface size is 22" x 60" inches which has plenty of running surface to walk or run for all types of users.

Powerful shock-absorption system

Be designed to be low impact and absorb your footfall to minimize the stress of impact for runners. The eight shock absorber elements in the deck ensure the stable and comfortable to run on.
